## MATERIAL SAFETY DATA SHEET

In accordance with the EC REACH Regulation No. 1907/2006 and No. 453/2010 Classified and labelled in accordance with EC regulation No. 1272/2008 (CLP).

6.2. Environmental precautions Do not empty into drains connected to surface water or sanitary sewers. Immediately inform competent authorities if the product has reached natural bodies of water. 6.3. Methods and material for containment and cleaning up Sweep up and place in a proper container for disposal. Use an appropriate vacuum cleaner. Dispose of according to applicable legislation. 6.4. Reference to other sections Data not available. SECTION 7. HANDLING AND STORING 7.1. Precautions for safe handling Wear personal protective equipment. Handle in accordance with good occupational hygiene and safety practice. Wash face and hands before breaks and immediately after handling the product. Provide adequate ventilation. Avoid contact of the substance with the skin, eyes, and clothing. Do not inhale dust. 7.2. Conditions for safe storage, including any incompatibilities Store well-closed in a dry, cool and well-ventilated place. Use open packages as quickly as possible. 7.3. Specific end use(s): Data not available. SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION 8.1. Control parameters Exposure limits CAS no. 14808-60-7 Chemical name Quartz, inhalable Ref AT AT AT AT Exposure limit 0,1 mg/m<sup>3</sup> 0,3 mg/m<sup>3</sup> 5 mg/m<sup>3</sup> K \_ \_ 14808-60-7 Total quartz Mineral dust, inert, inhalable Mineral dust, inert 10 ma/m 8.2. Control parameters Appropriate engineering controls Handle in accordance with good occupational hygiene and safety practice. Provide adequate ventilation. Avoid exceeding exposure limits (see Section 8). Personal protection measures Respiratory protection Use suitable respiratory protective device in the case of insufficient ventilation. Respirators that are permeable to dust are depreciated. Respirator equipped with a particle filter (EN 143) (P2). Hand protection Protective gloves, rubber gloves (EN 374), nitrile rubber. Eye/face protection Safety goggles with face protection in accordance with EN 166. Skin protection Personal protection equipment to be used: appropriate (EN 340). Environmental exposure Data not available. controls SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES 9.1. Information on basic physical and chemical properties Appearance: Powder pH: Relative density: Solubility: Water-soluble 9.2. Other information Data not available. SECTION 10. STABILITY AND REACTIVITY 10.1. Reactivity Stable under normal conditions. 10.2. Chemical stability Stable under normal conditions. Keep in a dry place. 10.3. Possibility of hazardous reactions Data not available.

**10.4. Conditions to avoid** Keep packaged product away from moisture.

10.5. Incompatible materials Reacts violently with acids. Wet mortar may react with aluminium powder and alkalineearth metals, producing hydrogen.

| 10.6. Hazardous de Stable under norma  | ecomposition products<br>Il conditions.  |  |  |  |
|--|--|--|--|--|
| SECTION 11. TOXICOLOGICAL INFORMATION  |  |  |  |  |
| 11.1. Information of Inhalation:   | on toxicological effects<br>Dust from the product may irritate the respiratory tract and<br>itching in the throat, respiratory involvement, chest pain and<br>cough.   |  |  |  |
| Skin contact:  | Dust from the product may irritate the skin. May cause burn the skin and mucous membranes.   |  |  |  |
| Eye contact:   | Dust from the product may cause redness and stinging of the<br>eyes and lacrimation. May cause permanent damage to the<br>eyes.  |  |  |  |
| Ingestion:   | Ingestion may cause serious irritation in the mouth, oesoph and gastrointestinal tract.  |  |  |  |
| Long-term effects:   | Prolonged inhalation of the dust particles may bring about the danger of pulmonary infection.  |  |  |  |
| SECTION 12. EC   | OLOGICAL INFORMATION   |  |  |  |
| <b>12.1. Toxicity</b><br>The product is not o  | considered to be dangerous to the environment.   |  |  |  |
| <b>12.2. Persistence</b> a Methods for the det substances.   | and degradability<br>ermination of the biodegradability cannot be applied to inorganic   |  |  |  |
| Data regarding che   | mical degradation are not available.   |  |  |  |
| 12.3. Bioaccumula<br>Avoid release of the  | tive potential<br>a product into the environment.  |  |  |  |
| 12.4. Mobility in so<br>Do not empty residu  |  |  |  |  |
